Benches

NEW SIZES!

High quality benches don't have to cost the Earth!

When you buy from us, you are buying directly from the importer – and if you've ever visited us, you know that you aren't paying for marble showrooms and nail-polishing receptionists. Result: great benches at great prices.

304 Grade: All our benches are made from this industry standard stainless steel grade. It is highly resistant to corrosion. We use 1.2mm thick stainless steel which is 20% thicker than some benches on the market.

Adjustable Shelf: Each bench comes with a high-quality 1.5mm galvanised undershelf - this thickness is vital to stability - fully adjustable up and down the length of the legs. The feet screw out to give you an extra 14mm height.

Flatpack: Benches flatpack for ease-of-handling and to lower freight costs. Takes about 15 mins to erect a bench with the supplied allen-key & screws.

All Stainless: Yes, we have benches that are all stainless i.e the undershelf and legs are fully stainless steel. Perfect for extremely salty or chemical locations. See opposite page.

Corner Unit: Matches sinks and splashback benches \$499

Splashback & Corner Units: We have a full range of splashback benches in sizes from 400mm to 2400mm. Choose from 40mm or 150mm high splashbacks. All are 700mm deep to fit the sink profiles. The corner unit completes the modular approach! Narrow splashbacks are now available.

Bench Code: 2448
1219mm long x 610mm wide
\$299

Bench - Code: 2436
914mm long x 610mm wide \$279
Wheels extra - \$120

Bench - Code: 3096
2438mm long x 762mm wide
\$659

150mm Splashback Series
2000mm long x 700mm wide
150mm splashback \$649

Castors to fit EVERY Bench

CASTORS: Yes, high quality heavy-duty castors are available for all the benches. We remanufactured the leg too - so the castors screw in firmly and maintain the 900mm bench height - this is much stronger. Each set has four lockable castors, \$120.00 per set. CODE: Wheels

We did a special order for a large hotel kitchen of narrow splashback benches and they looked so good we decided to incorporate them into the range. Splashback is 50mm high x 40mm deep. Total bench depth is 450mm. Same structure as other benches including undershelf.

GREAT FOR TIGHT SPACES

Narrow Splashback Code: 15045SP

Wider Island Bench • New Sizes • REINFORCED •

Many customers have asked for a deep bench so that two people can work opposite in comfort. So, here they are. Depth is 914mm. Many new lengths. Three support bars underneath give them extra stability.

not come with the free sink drainer.

Sink - Code: SS-N
Solid Standalone.
665mm x 700mm
FREE Sink basket waste
drainer included

Why are commercial sinks so expensive?
We have absolutely no idea!

Construction: Our sinks are fully stainless steel. The legs are stainless, the bowls are stainless, the screws are stainless. Very sturdy.

Bowls: All 300mm deep and mostly 500mm long by 450mm wide -- some variations.

Tap Location: Wherever you like. There is room between the trough and the splashback, through the actual splashback or you can even mount taps from your wall.

Splashback: Each sink has a 150mm high x 40mm deep splashback. 300mm splashbacks are available from our Brisbane/Gold Coast branch.

Cabinets - Indoor and Alfresco

Our cabinet range is completely modular. We can fit almost any space. And now even more configurations.

We've been stampeded in the rush to get hold of our new cabinet range. And why not?

They're terrific for those who need a solid workspace with loads of storage - Commercial, Domestic and Alfresco Kitchens.

Construction: All cabinets are fully assembled. The tops have a reinforced lining. Standard cabinets have drawers on super-smooth runners with attractive handles. Sliding doors reveal an adjustable internal shelf.

Indoor Grade: 304 grade top/ 430 grade remainder. If you have a largely covered area, then the indoor grade cabinets are for you. The top is food-grade 304 stainless steel, the sides and internals are 430 grade.

The Result: a cost-effective, food-grade standard cabinet able to withstand most conditions. Suitable for covered alfresco areas out of the elements.

Outdoor Grade: 304 grade everything. If you're in a more weather-prone area, these cabinets are the wise way to go. But more expensive - sorry.

Custom Made: If you're after a cabinet of a particular size, then give us a call. Diageo, Fosters and Yamaha dealers are some of our recent customers. As long as you give us 12 weeks lead time, we can certainly help and we'll save you about 40%.

Castors or Feet: Cabinets can be fitted with braked castors or with adjustable feet. They are attached by a thick steel plate with 4 bolts. Bloody strong.

NEW NEW
\$2295

Cabinet - Code: CAB20003D
2000 x 610mm **\$2295**
On Castors. 3 Drawers.
Can come with sturdy feet if you prefer.

Shelves... Shelves... Shelves...

COOLROOM/ DRY STORE SHELVING

The very familiar shelving system at a not-so-familiar price.

- Each set comes with 4 shelves
- Shelves adjust to anywhere along length of poles
- Extra shelves available at 25% of 4-tier price each
- Castors available - \$40 per set of 4
- Thicker diameter steel than most competing systems
- Adjustable feet

Our special black clip clicks under the shelf. Stops the shelf from sliding down - strong!

FULLY ADJUSTABLE! You can fix the shelves anywhere along the upright and at any height!

Chrome Shelf
SH2448CH \$259.00

Epoxy Shelf
SH2436EP \$189.00

Chrome shelves (above) look great but...

...the Epoxy shelves (above right) have a thick epoxy coating which is super-resistant to chipping and better for coolroom environments than chrome.

COMMON QUESTIONS ABOUT WIRE SHELVES

How are these shelves made?

Should I get chrome or epoxy?

These shelves are made of steel, then dipped in either chrome or an epoxy resin. Chrome looks absolutely fantastic but is a little more expensive. A reflective silver surface that reflects light and gives off an aura of sophistication, so they are commonly used in retail areas where they need to look good. The epoxy resin is like a rubberised surface. That makes them highly water resistant. So they are excellent for coolrooms or refrigerated environments. And they are also cheaper.

Can I buy extra shelves?

Of course you can!

Most people don't as four is generally a good number for an 1800mm high post. If you want extras, they are 25% of the total price of a set.

How do you put them together?

Can I put the shelves at any height?

Each shelf comes with four clips. Simply snap lock them onto the grooves on the upright posts. Slide the shelf over the post until they hit the clip, apply a bit of pressure and the shelf is locked in place. You can put the shelves anywhere along the upright to suit required shelf height.

What if I have an uneven floor?

Each post has a small adjustable foot. Simply screw it out to level your shelves on an uneven floor.

What are the load capacities of wire shelving?

Don't load more than 100kg on each shelf. If you need higher capacities, then go for longspan shelving. See www.rackpallet.com.au

Fully Adjustable Rail Kits - for underbench storage

These stainless rails can be fixed anywhere on the front and back of bench legs. Rails are perfect when removing shelves to allow for extra storage room such as a dishwasher, washing machine etc. Rails are sold as kits but ask for individual component prices.

? Which kit do I need ?

Kit prices are listed for each bench. Each kit contains: Two side rails, one front rail, one back rail and six height adjustable connectors. We can customise a kit for you. Please ring for advice.

3048	\$79				

* Kit for these six leg benches contain more rails and connectors.

Questions?

Why are you so much cheaper than your competitors?
Seriously, we are asked this question all the time. The answer: we directly import from an enormous Chinese manufacturer. We sell direct to the customer. No distributors. No middlemen. Also, we keep overheads down -- no marble foyers, no fancy administrative assistants, no sales reps in flash cars with nothing to do. We price the products accordingly.

Do you have everything in stock?
Yes, almost always. We reckon we have the largest stock of modular stainless steel products in the country. However, sometimes we get fooled by spikes in demand (this is a fancy way of saying that we either made a mistake or a customer ran us out of something). But we re-order quickly and can still get products to you faster than most local fabricators -- and loads cheaper of course.

Do you deliver? Can I pick up? How much to freight it?
We deliver coast-to-coast around Australia -- but of course you are welcome to pick up from one of our seven branches or use your own courier. Give us a call and we can give you an accurate price to get your stainless to you quickly and without fuss.

Can you make up a bench to a specific size?
No, we don't manufacture to size unless you have quite a large job. But give us a call - if we can't help we should be able to refer you to someone who can.

Other questions?
Please call, we are happy to help.

A bit about us...

Our Factory

Our factory is massive - it covers over 6000 square metres and is staffed by hundreds of friendly, skilled metalworkers who manufacture our products to our tight specifications. It's not a tin shed with grubby misfits hammering out sub-standard, rickety rubbish from crappy metals. That's how we can supply thousands of Australian and New Zealand customers quickly, efficiently and at unbelievably low prices.

One of the 4 production areas in our factory. We can produce 32,000 benches a month. How many do you need?

"I would like to take this opportunity to thank you for your time yesterday on the phone and today in person. From a employer of over 74 staff in the service industry I would have to say you have demonstrated the best customer service skills that I have been privileged to for quite some time. I believe you are a fantastic credit to your company and I would strongly recommend you to others. Thanks again for your time and effort and keep up your great customer service skills."
Nick D'Adamo, Keys Bros Removals & Storage

"Thank you so much for doing a great job and getting all the items to the kitchen on Tuesday. You really saved the day!"
Annie Kavanagh, Spencers Brook Farm

"Thank you and all the team at Brayco for a wonderful job. Firstly, to Denise who helped plan my kitchen, then Mick who took over so seamlessly from Denise and then to the gang at Springvale. Thank you for helping me choose my kitchen and then inviting me to buy more! Some mail outs do arrive at the right time :) Finally to Rob and Brett for replacing my drawers when they stuck. The sign of good business when things don't go quite to plan, the solution is as easy as the original purchase."
Pauline Chrissie McTaggart, Ladle Food Store

"Thanks for your patience and understanding in all the to-ing and fro-ing on this quotation. I would like to say it has been a pleasure to deal with you and your company, - such a professional service. "
Andrew Davison, Building Asset Coordinator

"Thanks soooo much for your speedy and helpful service after hours last night. It is much appreciated. As someone who works in the service industry and is always gobsmacked at how lacking service is in this country, it did not go unnoticed and is very much valued. Thankyou. "
Kirsty Mills, RaRa Cafe

"I called your office at around 12.30 pm today and ordered a small shelf - I asked it be delivered and was told it could be there this afternoon around three thirty pm. To my absolute amazement 60 minutes later the shelf arrived. I would like to thank you and your staff for this amazing customer service. I have been a loyal customer and through my experience I will recommend you to others. Well done. "
Michael & Alida Cubbage, Caffissimo West End Village

"We had initial doubt about the Brayco benches due to the unbelievable low prices but not only were they delivered within days of ordering but we were able to fit our classrooms at half the budgeted price. It's been over a year since we fitted our first classroom in Brayco benches and as they proved to handle all conditions, we have used them in our second, third and now fourth classroom."
Scott Jamison, Academia International

IDEAS??

If you've got an idea for a new product we can get it drawn up and costed in days.
